

Equipping America's veterans with vessels, tools or vehicles to start a business or pursue career education.

Texas Agritherapy Farm - "My horse mentor came to me after several talks about my goals on my farm here and told me she wanted to donate Sampson to be a therapy horse here," remarked Ramona Harding, a US Navy veteran who sustained injuries in her military career. "The donor needed to partner with a nonprofit to conclude the transaction, and I turned to Work Vessels for Vets who responded immediately!"

Sampson's Shadow has the perfect disposition for this work and has been specifically trained to be calm and responsive to veterans with PTSD, TBI and other injuries. Gypsy Vanners are particularly good therapeutic horses because of their gentle nature and Sampson will be a critical addition Pine Shadows Farm as veterans enjoy a therapeutic agricultural environment and equine therapy program. Grand Wine & Spirits - Chuck Bowe, owner of [Grand Wine & Spirits](#) wanted to "pay it forward" to thank military and veterans for their service. His stores dedicated a portion of sales to show gratitude by donating to WVFV, a nonprofit that makes a big difference across the country for our veterans.

Posing in his newly opened Grand Wine and Spirits Shop at 930 Poquonnock Road in Groton, Connecticut, Chuck was delighted to present a check for nearly \$1600 to John Niekraash, President and co-founder of Work Vessels for Vets. Thanks Chuck!
